

Multiple Cards

Can I install 2 Saber DA-1N1-I's in one system.

Â

Yes.Â There is no problem installing 2 Saber DA-1N1-I's or 2 Saber DA-1N1-E's in one systemÂ This gives you 2 analog and 2 digital (HDTV/ATSC) tuner in one system.Â

You can not use 1 Saber DA-1N1-I and 1 Saber DA-1N1-E in the same system.Â

It will probably work with 3, 4 etc cards (of the same type) as well.Â If you test this, please let us know.Â
