

## Multiple Cards

Can I install 2 Saber DA-1N1-I's in one system.

Yes. There is no problem installing 2 Saber DA-1N1-I's or 2 Saber DA-1N1-E's in one system. This gives you 2 analog and 2 digital (HDTV/ATSC) tuner in one system.

You can not use 1 Saber DA-1N1-I and 1 Saber DA-1N1-E in the same system.

It will probably work with 3, 4 etc cards (of the same type) as well. If you test this, please let us know.
